EDUCATION

Burapha University, Faculty of Science and Arts
Bachelor of Science in Information Technology

2020-2024

- GPA: 3.63 / 4.00

TECHNICAL SKILLS

Programming Languages

- Proficient : HTML, JavaScript, TypeScript
- Familiar : Java, PHP, Python, SQL, Go, C++, C#

Libraries Frameworks

- Proficient : React.js, Next.js, CSS, Tailwind CSS, Bootstrap
- Familiar : React Native

Database / Backend / CMS

- Proficient : MySQL, Supabase, Payload CMS, Docker, DBeaver, PostgreSQL
- Familiar : Firebase

Tools and Low code/ No code

- Postman, Git, Sourcetree, Jira, Bitbucket, Vercel, Clerk, Langfuse, Terraform
- Flutterflow

SOFT SKILLS

- Problem-Solving
- Time Management
- Collaboration and Teamwork
- Embracing and Celebrating Change
- Interpersonal Communication Skills
- Curiosity and Continuous Learning

LANGUAGES

- Thai : Native
- English : Intermediate

WORK EXPERIENCES

Junior Software Engineer

July 2024 - Present

- Full-stack Development: Developed client-facing applications using React.js, Next.js, and TypeScript on frontend; Node.js and PostgreSQL on backend, adapting tech stack to project requirements.
- Backend & Database: Designed database schemas, created and optimized tables, built RESTful APIs, and integrated third-party APIs for extended functionality.
- Architecture & Security: Developed custom middleware for authentication, authorization, request validation, and error handling.
- DevOps & Quality: Implemented CI/CD pipelines, wrote unit tests, and participated in code reviews to maintain high code quality and team standards.
- Team Collaboration: Engaged in daily stand-ups and sprint planning within agile development workflow.

Software Engineer Intern – Cooperative Education Program

Nov 2023 - May 2024

- Contributed to a CMS project for home and building repair management, implementing features and refining code quality based on senior developer feedback; presented project deliverables to university stakeholders.

Quality Assurance Intern – Summer Internship Program

Apr 2023 - June 2023

- Created and executed manual test cases, developed automated tests using Robot Framework, reported defects, and collaborated with developers to ensure software quality and bug resolution.

PROJECTS EXPERIENCE

KAI.AI | Typescript, T3 (Next.js, tRPC), shadcn UI, PostgreSQL (AWS RDS), AWS (S3, Textract, CloudFront), Terraform, SST

- Developed an AI-powered platform supporting mental health and self-development through conversational interactions.
- Built as a full-stack application using TypeScript and Next.js for both frontend and backend.
- Contributed to scalable infrastructure and data management using PostgreSQL and Terraform.

Unity Coffee | Typescript, Nextjs, Supabase PostgreSQL, Vercel

- Developed a full-stack solution for a coffee vending ecosystem.
- Built a cross-platform mobile application (iOS & Android) using Expo (React Native).
- Implemented backend and frontend services using Next.js and an admin CMS powered by Payload.
- Integrated with Iovent vending machine hardware via third-party APIs to enable coffee purchasing and reward coupon redemption.

SD Sealants | TypeScript, T3 (Next.js + tRPC), Database: PostgreSQL (Prisma), Microsoft SQL Server

- Designed and developed a web application for ship and building decoration projects, structured into two development phases.
- Utilized JavaScript/TypeScript for both frontend and backend, enabling a unified full-stack development approach.

EVO | JavaScript (Front-end), React.js, PHP (Back-end), Laravel

- Developed new features and fixed bugs in the CMS system to improve overall functionality and user experience.

Image Data Management System | JavaScript, React.js, PHP, MySQL (XAMPP) - University Project

- Designed and developed an online platform for managing digital image datasets to support image classification model development.
- Implemented configurable access control and data-sharing features.
- Designed the system with an emphasis on PDPA compliance and research ethics.

Website Portfolio | JavaScript, React.js, Bootstrap, Vercel - Personal Project

- Designed and maintained a personal portfolio website showcasing projects and technical skills.
- Regularly updated with new work and optimized for responsive and performant web development.

CERTIFICATES

Born to dev certificate of Introduction to Go Programming Language

- Completed the introductory online course on the Go programming language: basics, from beginner to development.

Advanced Computer Programming

- Successfully completed, received a passing grade, and was awarded this MUx Honor Code Certificate of Completion in Advanced Computer Programming

Learning Coding Basic With Block-based Programming

- Successfully learn Learning Coding Basic With Block-based Programming from the online course Chula Mooc

12th Asia Undergraduate Conference on Computer Science (AUC: 2024)

- Participant in presenting a research paper in poster format
- The 12th Asia Undergraduate Computer Conference (AUC: 2024), Held on 21-23 February 2024 at Mahasarakham University.
